

Vertical lifelines

STOPCABLE™ S

The use of a ladder to gain access to a high level workstation can pose an element of risk. The purpose of the Stopcable™ S system is to ensure the safety of personnel throughout their ascent. The Stopcable™ S vertical lifeline is a mobile anchoring device to enable a person to move on a vertical axis in perfect safety and without having to disconnect themselves. It consists of a fixed point and individual mobile equipment. The Stopcable™ S vertical lifeline was designed, created and tested to comply with the requirements of the EN353-1 and EN 353-2 standards.

U BOLT

The jumpers or stirrups enable the connection of the anchor terminals and the cable guides to the ladder rungs.

- Material: Stainless steel

model	code
diameter 27 mm	018132
diameter 34 mm	018142

FALL ARRESTER

Fall arrester with shock absorber.

- Anti-reversibility system
- Supplied with M10 connector
- Absorber webbing strap
- Material: Stainless steel

model	code
FPDA	072272

CABLE GUIDE

To be installed approximately every 10 m. The purpose of the cable guide is to restrict cable play. Material: stainless steel and rubber.

model	code
cable guide	108857

CABLE

Galvanized or stainless steel cable. Start kit: 3 m cable supplied with swage on one side and 3 steel cable clamps.

Add additional length per meter.

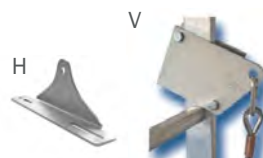

model	code
galvanized start kit	037422
galvanized cable per m.	025101
stainless steel start kit cable	018162
stainless steel cable per m	025091

ANCHOR POINT

Top and bottom anchor point.

- Material: Galvanized steel or stainless steel
- 2 models:
 - H - Horizontal support
 - V - Vertical support

model	code
H, galvanized	017872
H, stainless steel	032902

TENSIONING DEVICE / COUNTERWEIGHT

- Spring tensioning device. Material: stainless steel clevis pin, pre-tension indicator.
- Counterweight (should be used at the bottom end of the installation, if this end is not fixed onto the ladder)

model	code
tensioning device	090059
counterweight	129445

SHOCK ABSORBER

Material: stainless steel clevis pin, PU shock absorber.

model	code
shock absorber	0
